

# CertAlert Report

28 September 2017 11:41:10

## Expired Certificates

The certificates listed in the table below have expired.

Host	Common Name	Expiry Date
expired.badssl.com	*.badssl.com	13/04/2015 00:59:59

## Expiring Certificates

The certificates listed in the table below are approaching their expiration date.

Host	Common Name	Expiry Date
actualitte.com	actualitte.com	30/10/2017 16:56:00
smtp.gmail.com	smtp.gmail.com	06/12/2017 17:09:00
blogspot.com	*.googleusercontent.com	06/12/2017 17:10:00
searchtempest.com	searchtempest.com	23/12/2017 03:35:00

## Short Key Certificates

The certificates listed in the table below have RSA keys that are less than 2048 bits long.

Host	Common Name	Key Size
------	-------------	----------

## Self Signed Certificates

The certificates listed in the table below are self-signed.

Host	Common Name	Expiry Date
self-signed.badssl.com	*.badssl.com	08/08/2018 22:17:05

## MD5 Certificates

None of the certificates scanned are signed using the MD5 with RSA signature algorithm.

## **SHA1 Certificates**

None of certificates scanned are signed using the sha1WithRSAEncryption signature algorithm.
